### Founding 'Kokoda Chick, Viona Young

Viona is very passionate about supporting breast cancer research.

"Breast cancer touches so many people and has such a huge impact on those it affects. Having lost both my beautiful mum and grandmother to breast cancer, I could not sit back and do nothing. I wanted to help the National Breast Cancer Foundation achieve their ultimate goal – to find a cure for breast cancer.

I am so proud of what the 07, 08 and 2010 Kokoda Chicks have achieved. Having walked the track myself with the 2007 Kokoda Chicks, I would encourage every woman who loves a challenge to become a Kokoda Chick. And if mozzies, rain, tents and sore legs are not your thing, please support the Kokoda Chicks fundraising efforts."
